SUMMARY

MARTEL GMBH and the project partners are processing your data in compliance with the GDPR in the context of the 6G-XR project to:

- register you to the 6G-XR events and to populate participants lists,
- where applicable, set up networking activities for event participants,
- inform you about 6G-XR activities,
- provide access to resources,
- promote and document the 6G-XR activities,
- produce aggregated statistics

Your data will be kept no longer than five years after the completion of the project. You might be photographed or recorded for documentation and promotional purposes on the project and project partners web and social media handles. Data transfers outside the EU might happen, including to project partners located outside the EU, who will comply with the GDPR and to third parties. You have a right to view personal data, to rectification and, in some circumstances, to restriction of processing and to object. Contact info@6g-xr.eu.

INTRODUCTION

You are invited to participate and contribute to the activities of the 6G-XR project that is co-funded by the European Commission under the Horizon Europe Programme.

Your participation is voluntary, you are free to withdraw at any time before or during the activities you are involved in by contacting the people mentioned in the current form.

Before you decide whether or not to take part, please take some time to read the following information carefully. Please, feel free to ask questions if more information or clarifications are needed using the contact details in the last section of this sheet.

6G-XR MAIN SCOPE

6G eXperimental Research's (6G-XR) ambition is to strengthen European leadership in 6G technologies by enabling next-generation XR services and infrastructures that will provide beyond-state-of-the-art capabilities towards the 6G era.

The project will develop an experimental multisite Research Infrastructure (RI) to provide a validation platform for various 6G use cases by developing enablers for networking and computing, radio access technologies beyond 5G, enablers for XR services with in-build federation, trial management, abstraction tools as well as energy measurement frameworks.

The data collected are stored on Microsoft SharePoint Space¹, managed by the project coordinator, OULUN YLIOPISTO.

The event is organised in the context of the 6G-XR project, which is co-funded by the European Union, your personal data (e.g., name, affiliation and email address) might be shared with authorised staff

¹ Please note that Microsoft SharePoint has its own Privacy Statement: <https://privacy.microsoft.com/en-us/privacystatement>

members from the European Commission (Unit E.4 - Internet of Things Directorate-General for Communications Networks).

The purposes of this data processing are:

- to register you to the 6G-XR events and meetings and to populate participants lists,
- where applicable, to set up networking activities for event participants,
- to inform you upcoming events, meetings, workshops and other activities organised in the context of the 6G-XR project,
- to provide access to resources linked with the 6G-XR project and events,
- to promote and document the 6G-XR activities,
- to produce aggregated statistics to monitor the performance of the project.

In addition, personal data are collected based on your explicit prior consent, in case you decide to interact on social media, or on interactive platforms used during the event (e.g. Slido): photo or video materials depicting you, your social media account handles, comments you decide to share, feedback, questions, contributions during the event or meeting.

The meeting might be audio and video recorded or web-streamed, and pictures might be taken for live streaming and live or future dissemination on the project and the project partners' web and social media outlets. This means that you might be photographed or recorded and that photographs and recordings of you might be taken during the event and might be used for online and offline communication activities related to the 6G-XR by the project partners listed above.

Third party tools are used to organise the event (user registration, interactions during the session and data storage):

- The participant registration platform used is Ti.to events registration management system. Terms of use and Privacy Policy: <https://ti.to/privacy>
